Your committee on resolutions appointed at a meeting of the bar and officers of the circuit court for Caldwell county, Ky., held at the court house on today, beg leave to report as follows:—

That Whereas, on account of the illness of Hon. J. F. Allie C. Moore, a member of the Marion bar, to act as such judge. Resolved:

First, That the members of this bar and officers of the court recognize the wisdom displayed by the Governor of Kentucky in the selection of Hon. Allie C. Moore as special judge of this court at its present October term.

acterized the manner in which Judge Moore has conducted the business of the term, and the marked ability displayed by him in his judicial rulings, which have received most careful consideration at his hands, so that in him we recognize an able, upright and dignified judge, and we thank him for his work at this term.

An Appreciation.

Dr. Byron W. King has come and gone and with him he has taken great numbers of hearts—hearts of many of the best men and women in all Louisville—hearts that have been touched and swayed, sweetened and strengthened by the magic power of this masterful man. His life has been an inspiration, and his memory will be a benediction.

We loaned him our minds and he taught us of their power and use; we loaned him our hearts and upon their strings he played and we were strengthened—strengthened for the battle of this thing we call life, and life to many of us has taken on a different and a better meaning. Where there were shadows before, there is light now—light that comes from the soul's touch with a great and noble soul which has been touched by the Light of Life.

He taught us something of the beauty and of the power of speech, but he taught us more of the beauty and the power of soul—that it is God-given and should be God-directed—and that we as His children have a boundless storehouse from which to draw everything needed to make our lives bright and noble, happy and useful.

This indeed has been a great week at the Temple. The results will be far-reaching. The good accomplished can never be fully known here—eternity alone can tell. Our people are a grateful people to Dr. King for the faithful and masterful service he has rendered while in our midst. Our prayers will follow him wherever he goes, and our hearts and our hands will be open for his return.

A VAST MINERAL FIND FOR CRITTENDEN COUNTY.

Valuable Zinc And Lead Ore Uncovered At Depth Of 100 Feet That Means Millions Of Dollars.

Learning of the great find in the LaRue mines at the F. G. Cox place, seven miles distant from Marion, we at once sought some of owners and especially those in authority, who revealed to us that the shaft had not been told.

Mr. J. M. Persons, who is an authority on mine matters, in an interview said that the newly uncovered mineral represented untold wealth; that it was an inexhaustible fissure vein, seven feet thick, forty per cent of which is zinc, with a paying quantity of lead, a large sample of which can be seen at the Record-Press office.

This rich vein was discovered some fifty years ago in the same hole, but supposed to be worthless. The company composed of J. M. Persons, G. C. Gray, Murray Saunders and other parties of New York concluded to pump the hole dry so as to fully investigate it, were wonderfully surprised to find it so rich in zinc and lead. This is supposed to be the mother vein of all this mineral belt and in value is estimated into the millions. Mr. Persons and the other owners of the property will at once commence forming a large stock company for mining and putting this ore on the market. In comparison of value this ore is worth \$20. per ton and up, against \$5. per ton for other Crittenden county ores.

This rich bed was found at a depth of 100 feet from the surface and will

be easy to mine. Every one is congratulating the owners on their good fortune which, of course, will prove of great value to all Crittenden county. The ore is rich and plentiful and can be seen by all visitors, it is there in sufficient quantity to mean untold wealth to the owners.

CONGRESSMAN JAMES IN LOUISVILLE FOR A DAY.

Representative-Elect Pogue Passes Through On Way To Frankfort.

Congressman Ohio M. James, of Marion, arrived in Louisville last night and will remain over today. He is at the Old Inn, but was mixing with friends at The Kentucky last night. He said that the Democrats in his part of the State had not yet finished rejoicing over the victory in Louisville. Congressman James will not leave for Washington until December 3, so as to be ready for the assembling of Congress on the following Monday.

M. F. Pogue, Representative-elect from Crittenden and Livingston counties, was with Mr. James. Mr. Pogue is on his way to Frankfort so as to take a little survey of the situation before going there to attend the session of the Legislature. Mr. Pogue was formerly connected with the Legislature in the capacity of clerk, but this year he goes back to help make the law. He is a neighbor of George Willson, of Union county, and he is for him for Speaker of the House.

Mrs. W. H. Compton, of Nebo, is visiting her father, C. W. Davis, and family this week.

GIANT COMPANY IS ORGANIZED

Citizens National Life Insurance Field—Over 200 Stockholders Attend First Meeting.

R. L. MOORE, ONE OF DIRECTORS.

One of the biggest financial institutions ever established in the South was launched with modest ceremony last Wednesday when subscribers for stock of the Citizens National Life Insurance Company met in Louisville and completed organization. The occasion attracted more than two hundred men from every section of Kentucky and from many points throughout the South. One of the noteworthy incidents in connection with the organization of the new institution is that on the day of its formal entry into the financial and commercial world every county in Kentucky, save three remote mountain counties, was represented in the roster of stockholders.

There are said to be over 1,500 stockholders in the new company and it is estimated that something like 80 per cent. of these were represented at yesterday's meeting, either in person or by proxy. The total subscription of stock is announced at \$1,000,000, an additional \$1,000,000 being represented in surplus.

DIRECTORS ELECTED.

The sum total of the entire day's business was the formal assembly of the stockholders and ratification of the work accomplished by the organizers and incorporators, and the election of a board of directors, numbering thirty-six prominent men of Kentucky and other Southern States. Included in the directorate are many men who have been prominent in the affairs of the Citizens Life Insurance Company, of this city. It is understood to be the plan of the company just formed to increase its capital stock to \$5,000,000, with a surplus of \$5,000,000. Before this is done, however, it is expected there will be a consolidation of the company with the Citizens Life Insurance men and others declare this will give Kentucky and the South one of the strongest life insurance companies in the world, and one which will not confine its activities to the section south of the Mason and Dixon line alone, but will go into other parts of the Union.

The stockholders were called together promptly at 10 o'clock Wednesday morning at the headquarters of the company in the Courier-Journal building by W. H. Gregory, chairman of the organization committee and president of the Citizens Life Insurance Company. Because of the cramped quarters, adjournment was immediately taken to the Louisville School Board in the Citizens Life building on Walnut street. Although seats for some 200 persons had been provided, even standing room was at a premium when Chairman Gregory again called the stockholders to order. The remainder of the morning was devoted to impromptu speech-making, followed by a ratification by the stockholders of the work of the organization committee and incorporators. Mr. Gregory addressed the stockholders in part as follows:

STATE SENATOR LINN KENTUCKY'S GOVERNOR

For A Few Hours Only Is He Chief Executive—Wilson And Cox Out Of The Commonwealth.

UNAWARE OF THE HONOR.

Frankfort, Ky., Nov. 17.—Kentucky to-night has a Democratic Governor, Conn Linn, president pro tem of Senate, being temporarily in the Governor's chair during the absence from the State of Governor Willson and Lieut. Governor W. H. Cox. Mr. Linn succeeds to the Governor's chair when both the Governor and Lieutenant Governor are out of the State or die. The former contingency has happened, Governor Willson was due in the State at one o'clock this afternoon, but stopped over in Philadelphia for a few hours and so did not reach Kentucky until Thursday morning about 3 o'clock. Gov. Cox left Kentucky, on his way to Florida for a hunting trip this afternoon at 4 o'clock. When he left the borders of the State Mr. Linn became acting Governor.

This is the first time that a Democrat ever acted as Governor during a Republican administration. It is not the first time that the president pro tem of the Senate acted as Governor, however, as Senator George Hickman sat in the Governor's chair for two days, while president pro tem of the Senate during the absence from the State of Gov. Beckham and Lieut. Gov. Thorne.

Mr. Linn probably will not know that he was Governor for a few hours until Thursday when he sees the newspapers. It would have been impossible for him to reach Frankfort, so he was not notified that he was actually acting Governor. As he was not in Frankfort there was but little that he could have done and it is doubtful if he could have even granted a pardon without the seal of the State and the Secretary of State's name on it. But Mr. Linn will be known as Governor after this, and he has a right to the title.

Best Stomach Remedy Free

It is an old saying that if the stomach is sound the whole body is safe, because so much depends upon the proper working of the stomach. Many persons find themselves with a disorder of the stomach which produces dyspepsia or a peculiar state of biliousness.

If you suffer from both stomach trouble and constipation you are on the way to a very serious disease. From just such conditions come appendicitis, rheumatism, skin diseases and similar disorders, because the waste matter that should have been expelled from the system through the bowels has found its way into the blood and vitiated it. What is needed at this point is not simply a violent cathartic tablet or pill, which usually does more harm than good, but a gentle laxative tonic like Dr. Caldwell's Syrup Pepsin, which people have been using for 30 years as the best remedy for all stomach ailments for nearly a quarter of a century. It cured J. C. Madison, of Warrensburg, Mo., of stomach trouble of long standing, also Will A. Van, of Wytheville, Ky., who had the trouble for fifteen years.

However, if you have stomach trouble you want to know from personal experience what Dr. Caldwell's Syrup Pepsin will do for you. If so, send your name to the doctor and a free trial bottle will be sent you. You are urged to send for the free bottle, as the results from it will be the best recommendation of Dr. Caldwell's Syrup Pepsin. Then you will do as over two million people did last year—go to your druggist and buy a regular bottle at 50 cents or \$1, according to the size you prefer. You could mention hundreds and hundreds of families who are never without it. You can never tell when some member of the family will need a laxative, and then you should be glad you took Dr. Caldwell's Syrup Pepsin.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 509 Caldwell bldg., Monticello, Ill.

Nervous Prostration For Three Years

"Dr. Miles' Restorative Nervine cured me of a period of nervous prostration of over three years duration, and the Anti-Pain Pills are as necessary to us as the roof of our house. They have been household remedies with us for many years."

WM. J. LOUGHRAN,
1214 Catherine St.,
Philadelphia, Penna.

Much sickness is due to nervous troubles. Headache, dizziness, epilepsy and insanity are nervous troubles. Then there is a large class of disorders which arise from a weakness of the nerves of an organ or part, as weak lungs, heart, stomach, kidney, bladder, eyes, etc. Dyspepsia and indigestion are usually the result of nervous disorders.

Restorative Nervine
soothes the irritated nerves, and assists the nerve cells to generate nerve force.

Dr. Miles' Nervine is sold by all druggists. If the first bottle fails to benefit, your druggist will return your money.

Again the people under the proud
flag of the United States are enjoy-
ing or given the right to enjoy a day
of thanksgiving.

What a vast domain of our
great and free government what a
contrast in the conditions of her
people and the things to be thankful
for. How in our old settlement,
one of the proudest counties in the
State, shown by statistics to be the
richest and most fertile in the United
States, and the home of some of the
greatest men and fairest women in
Kentucky, we have a right to be
thankful to God for his many bless-
ings, that others, though just as
deserving, do not enjoy. And yet
they are thankful, are more so per-
haps than we, many who worshiped
with us on this day a year ago, as-
sisting in the singing, the prayer
service, in making the Altar sweet
with the fragrance of beautiful flow-
ers or in the preparation of the good
dinner, have passed through the
valley of the shadow of death and are
today, among their voices of praise
with the numberless thousands in the
Beautiful City, where the sun never
goes down. And we can be thank-
ful, we know them, that they were
our associates and that it is our
privilege to make life as pleasant
for others as they made it for us and
that ultimately we may go down
through the same dark valley with
the assurance that beyond all this
darkness and gloom, the dawning of
an endless day awaits us in the city
of God, the beauty of which is but
faintly portrayed in the vision of

John on the Isle of Patmos.

There are doubtless causes in every
home to be thankful if we but just
hunt them up. The rich man can
thank God that he is no richer and
the poor man, that he is no poorer,
the liberal man, that he has been
shown opportunities to do good with
the talents he has been entrusted
with, the thriftless, that our rich
country yields so bountifully that
there is little excuse for want in the
land, and the beggar and tramp,
that there are so many good people
and so few bad dogs. If we but
learn to say from deep down in our
hearts, "and my will be Thine be
done" there is not a home in all this
broad, free land of ours should not
be able to send up a prayer of
thanksgiving.

While the grief-stricken people of
Cherry, Ill., are mourning their
dead, every Christian home under
the same flag, is mourning with
them and too, with a sympathy that
is making its self felt in the care
and future comfort of the hundreds
of newly made widows and fatherless
children, and they have a cause to
be thankful that at least, some of
their loved ones were saved and that
there were great loving, big hearted,
brave men that went the limit, ex-
emplifying what the Master meant
when he said: "Greater love hath no
man than this, that he lay down his
life for his friend," when they went
hundreds of feet into the howls of
the earth to rescue their perishing
comrades. Truly such heroism and
bravery on the part of this rescue
is enough to cause prayers of thanks-
giving to ascend to a throne of grace
that can be felt and heard all over
the known world.

We are living in a prosperous age
and truly here at home we are en-
joying prosperity and surely we are
not blessed in all things above our
neighbors. Our merchants, recog-
nizing God's goodness to them, in

closing their business houses to day
for a few hours, do so with the assur-
ance that He has been good to them.
Just this week and since writing the
first lines of this article it comes to
light that a great and inexhaustible
fissure vein of zinc and lead has been
found seven miles from Marion that
has made the whole town and county
glad and that runs into millions of
dollars in value.

This effects the people of the
whole county as well as our adjoining
counties and today the step of
every man, woman and child in
Marion seems lighter and the songs
of praise sweeter. It means a new
era in our lives and in the enjoy-
ment of it all nature seems to have
put on a new dress, God knows how
thankful we should feel and be for
the loved ones he has given us along
with these other great blessings and
if we fail to open our hearts to Him
in thankfulness for all of it we should
not be worthy of His blessings.

On Wednesday of last week we
were present at the organization in
Louisville of the great Citizens Na-
tional Life Insurance Company. This
is not only the largest Insur-
ance Company in the South, but in
the United States as well.

Never in the history of our life
have we seen a body of men, repre-
senting millions of dollars, that in so
short a time, perfected an organiza-
tion in which peace and harmony
prevailed from start to finish.

In the election of the thirty-six
directors, twelve to hold one year,
twelve two years and twelve three
years, there was not a hitch nor a
jar, and the consequence was that
their selection was good, as all
are well qualified representative
Southern men. Mr. W. H. Gregory,
who, as its president has made the
Citizens Life the wonder of the
South, was unanimously chosen as
president of the new, Citizens Na-
tional Life under whose management

every subscriber of stock has un-
limited confidence.

Dr. R. L. Moore, of Marion, was
wisely chosen as one of the directors.
Some thirty thousand dollars of the
stock of the new company, was writ-
ten in this county by Mr. A. P.
Cunningham, of Jacksonville, Fla.,
more than two thousand dollars of it
taken in Tolu, Mr. Cunningham
has made many warm friends here for
himself as well as the company, and
as soon as the new organization asks
for business, it will be hard to find
men who can be persuaded to send
money out of the State as in the past.

To-day begins a new year. The
date on the calendar does not mat-
ter. The earth starts every morning
on its year-long journey around the
sun as truly as on the first day of
January, and each new dawn is
therefore a fresh opportunity to
begin right. It is for us to deter-
mine what the year shall be. The
demand upon us is not that we
succeed, but only that we try; and
to try manfully every day and all day
long, is inevitably to attain in the
end a supreme success.—Youth's
Companion.

Every available space has been
used in the yards of the L. C. rail-
road the past few weeks in the
loading of floor spar, lead ore, logs,
lumber, heading, flour, grain, hay,
hogs and cattle. While this be-
speaks the prosperous condition of
our town and county, it is small in
comparison to what it should be and
in fact will be in the next few years.

Miss Pearl Doss Badly Burned at Madisonville.

Just as we were going to press
Mr. C. E. Doss received a telegram
from Madisonville, apprising him of
the very serious and perhaps, fatal
burning of his daughter, Miss Pearl,
who had but yesterday, left Marion
to spend Thanksgiving with her sis-
ter, Mrs. Tom Hearn.

The message stated Miss Pearl was
standing with her back to the fire
when a puff of wind blew the flames
out of the grate, igniting her cloth-
ing and at once her whole body
was enveloped in flames. Three of
the best physicians to be had were
battling against death at the last
message. Her father and brother
left at once on the first train. They
have the sympathy of every one in
this their great grief.

THE ONE MEANS OF RELIEF.

October 27th, the car shortage amounted to 36,000 cars, an increase in the short space of two weeks from a shortage of 23,000 reported on October 7th, with the certainty of further decrease in the number of freight cars, a fact which shipper and receiver must face and for the added cost of which the entire country must pay. The fact that the great railway systems are placing orders for more cars gives no sign of present relief, nor does the fact argue for relief in the future. It is always to be remembered that the growth of trade and commerce far outstrips the efforts of the railways to keep pace with it. To believe otherwise would be to deny the patent facts of past growth, so enormous and so continuous, as to call from President Hill the statement that it would cost the railways of the country the expenditure of \$1,000,000,000 annually for five years to come up to the demands of trade and commerce.

It is a frank confession. But it was a confession which carries its own refutation with it. While the railways were engaged in their expenditure of \$1,000,000,000 annually, the country would be developing at a rate even greater, and the catching up of the railways could be accomplished only on the impossible condition that the trade and commerce of all sections of the United States should remain at a standstill.

There is but one method through which relief from car shortages can be had. That method is in the improvement of the inland waterways of the country. With the inland waterways improved, the additional facilities demanded by shippers by rail could be afforded. The fact of enormous development, and the fact that with each year the car shortages grow more serious and more costly and disastrous, are the surest guarantee that there are freight offering amply sufficient in volume to tax the capacity of both means of transportation, and that the relief which shipper and receiver demand, would ensure to the relief of the railway.

There cannot, in the nature of thing, be hostility in competition between the river and the rail. Last year the upper Ohio held in leash for

more than six months 15,000,000 bushels of coal which the manufacturing interests of the middle and lower Ohio needed and could not have, because of the continued low water in the Ohio. At Ogden, in Utah, there are now 75,000 tons of sugar beets awaiting the time when the railroads can handle them. Because of low water in the Ohio the 15,000,000 bushels of coal were valueless. So are the 75,000 tons of sugar beets, with the lack of value extending to the labor that would have employed in the factories if the coal had been received or if the sugar beets could be moved.

Without means of transportation, production is a waste of time and money. With improvement of the waterways production would be stimulated because of the certainty of reaching a market. The proposition is self evident, but it cannot be brought to accomplishment without the adoption of a settled policy on the part of the Federal Government, such as the National Rivers and Harbors Congress advances, and such as much, eventually, be adopted by the Congress of the United States. The coming session of the Congress at Washington on December 8th, 9th and 10th, will outstrip its predecessors in the fact that it will assemble with the knowledge that its platform:—"A policy; not a Project"—meets with the cordial approval of all interests, with only persistence needed to produce the desired result.

Money Comes in Bunches

to A. A. Chisholm, of Treadwell, N. Y., now. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness and general debility," he writes "I couldn't sleep had no appetite, nor ambition, grew weaker every day in spite of all medical treatment. Then used Electric Bitters. Twelve bottles restored all my old-time health and vigor. Now I can attend to business every day. Its a medicine." Infalible for Stomach, Liver, Kidneys, Blood and Nerves. 50c. at Jas. H. Orme's and Haynes & Taylor.

Choosing a Christmas Present.

When you make a present of a gift to a friend or a family you are really selecting a companion to follow them for good or ill during a whole year. If the acquaintances of your sons and daughters were to call to them aloud as some periodical talk to them silently, how quickly you would forbid the companionship! In the one case as in the other, the best course is to reject the injurious with some-thing equally attractive and at the same time "worth while." A food can be wholesome and utterly dis-appointing. Reading can be made so, too. But The Youth's Companion not only nourishes the mind, but delights it, just like that ideal human associate whom you would choose. The Youth's Companion fills that place now in more than half a million homes. Can you not think of another family in which it is not yet known where it would be joy-fully welcomed?

If the \$1.75 for the 1910 Volume is not now, the new subscribers will be entitled to all the remaining issues of 1909. If desired, the publishers will hold these back or send them at Christmas time together with the Christmas Number and The Companion's new "Venetian" Calendar for 1910 lithographed in thirteen colors and gold.

The Bed-Rock of Success

It is a keen, clear brain, backed by indomitable will and resistless energy. Such power comes from the splendid health that Dr. King's New Life Pills

impart. They vitalize every organ and build up brain and body. J. A. Harmon, W. Va., writes: "They are the best pills I ever used." Sold at Jas. H. Orme's and Haynes & Taylor's.

Our Immense War Bill.

Justice Brewer of the United States Supreme Court points out that this country is spending the stupendous sum of \$365,000,000 annually for war expenses. This is one million dollars per day for every day in the year including Sundays. It represents sixty-five per cent of government expenses. Some idea of what this means can be gained by speculating on what this sum of money would do for the American people.

It would build and furnish \$200,000 homes superior in every way to those occupied by 90 per cent of the inhabitants of the United States at this time.

It would enable the government to pay \$200 per year to every boy and girl under sixteen years of age employed in the sweat shops, cotton mills and mines of this country.

It would build and equip a public library in each state in the union surpassing in beauty and design and magnificence the congressional library at Washington.

It would provide a university of education for the children of the working class and equip them mentally for the battle of life.

This sum would provide a home and comfort for all men and women over three score and ten.

It would build hospitals for the sick and infirm and provide highly skilled physicians and attendants free of all cost.

This sum spent annually for ten

years would stamp out the dread disease of consumption.

It would build a system of public parks from ocean to ocean that would make this old land really worth living in.

Your imagination will readily conjure up many more directions in which this sum could be profitably spent in providing for the comfort, health and happiness of those whose labor creates it.—Exchange.

FORCED INTO EXILE.

Wm. Upchurch of Glen, Okla., was an exile from home. Mountain air, he thought, would cure a frightful lung racking cough, that had defied all remedies for two years. After six months he returned, death dogging his steps. "Then I began to use Dr. King's New Discovery," he writes, "and after taking six bottles I am as well as ever." It saves thousands yearly from desperate lung diseases. Infallible for coughs and colds, it dispels hoarseness and sore throat. Cures Grip, Bronchitis, Hemorrhages, Asthma, Croup Whooping Cough. 50c and \$1.00, trial bottle free, guaranteed by Jas. H. Orme and Haynes and Taylor.

250 Good Stories.

The Youth's Companion abounds in stirring stories of adventure and heroism. One may describe an escape from accidental peril, another a strange encounter with wild creature—man or beast.

Many of these stories are true as to facts, and only disguised as to names and places. A score or more of such stories will be published during 1910 in addition to nearly 200 others—250 good stories in all, no two alike. And this is not counting the serial stories, which it is believed will be considered by old Companion readers as the best The Companion has ever published.

Every new subscriber will find it of special advantage to send at once

the \$1.75 for the new 1910 Volume. Not only does he get the beautiful "Venetian" Calendar for 1910, lithographed in thirteen colors and gold, but all the issues of The Companion for the remaining weeks of 1909, from the time the subscription is received.

Cure Your Dandruff

Why? Because it is annoying, untidy. And mostly, because it almost invariably leads to baldness. Cure it, and save your hair. Get more, too, at the same time. All easily done with Ayer's Hair Vigor, new improved formula. Stop this formation of dandruff!

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

The new Ayer's Hair Vigor will certainly do this work, because, first of all, it destroys the germs which are the original cause of dandruff. Having given this aid, nature completes the cure. The scalp is restored to a perfectly healthy condition.

Governor Deneen Declares Sheriff's Office Vacant.

Springfield, Ill., Nov. 18.—Gov. Charles S. Deneen today declared the office of Sheriff of Alexander county vacant, because Sheriff Frank E. Davis allowed William James, a negro, and Henry Salzer, white associate, to be taken from his care and lynched at Cairo by a mob on Nov. 11. The Governor acted in observance of a law that provides that whenever a sheriff surrenders a prisoner to a mob, his office expires immediately.

In the order removing Sheriff Davis, Governor Deneen recites the facts of the lynchings, proclaims the office of Sheriff vacant and names Coroner James McManus, of Alexander county, until a new Sheriff shall be elected or appointed.

Sheriff Davis had a conference with Governor Deneen today. He filed with the Governor and with Attorney General Stead a petition next week when he returns from Kansas City.

Strong Healthy Women

If a woman is strong and healthy in any way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

The highest medical authority on foods,

Sir James Crichton Browne, LL.D.—F.R.S. of London,

gives the best reasons for eating more

Quaker Oats

In an article published in the Youth's Companion of September 23rd, 1909, Dr. Browne, the great medical authority on foods, says, about brain and muscle building—

"There is one kind of food that seems to me of marked value as a food to the brain and to the whole body throughout childhood and adolescence (youth), and that is oatmeal.

"Oats are the most nutritious of all the cereals, being richer in fats, organic phosphorus and lecithins."

He says oatmeal is gaining ground with the well-to-do of Great Britain. He speaks of it as the mainstay of the Scottish laborer's diet and says it pro-

duces a big-boned, well-developed, mentally energetic race.

His experiments prove that good oatmeal such as Quaker Oats not only furnishes the best food for the human being, but eating it strengthens and enlarges the thyroid gland—this gland is intimately connected with the nourishing processes of the body.

In conclusion he says—"It seems probable therefore that the bulk and brawniness of the Northerners (meaning the Scotch) has been in some measure due to the stimulation of the thyroid gland by oatmeal porridge in childhood."

The Scotch eat Quaker Oats because it is the best of all oat-meals.

For sore throat, sharp pain in lungs, tightness across the chest, hoarseness or cough, have the parts with Sloan's Liniment. You don't need to rub, just lay it on lightly. It penetrates instantly to the seat of the trouble, relieves congestion and stops the pain.

Here's the Proof.
Mr. A. W. Price, Fredonia, Kans., says: "We have used Sloan's Liniment for a year, and find it an excellent thing for sore throat, chest pains, colds, and hay fever attacks. A few drops taken on sugar stops coughing and sneezing instantly."

Sloan's Liniment

is easier to use than porous plasters, acts quicker and does not clog up the pores of the skin.

It is an excellent anesthetic remedy for asthma, bronchitis, and all inflammatory diseases of the throat and chest; will break up the deadly membrane in an attack of croup, and will kill any kind of neuralgia or rheumatic pains.

All druggists keep Sloan's Liniment. Price 25¢, 50¢, & \$1.00. Dr. Earl S. Sloan, Boston, Mass.

The Deadly Finger Nail

Every time you scratch yourself you run a risk. No, don't smile that superior smile and say that you have never yet had any trouble from it. What we say is true. Ask any physician. To scratch your scalp, to pick a pimple or a scab is particularly dangerous. Your finger nails carry germs of Erysipelas, Tetanus (Lockjaw) Erysipelas, and other deadly diseases. Let one of these germs get into the scratched place and you are sure to follow. Because you have been lucky enough to escape so far, do not guarantee that you will be so lucky in the future. Don't take chances. For erysipelas use Little's Liquid Sulphur, stopping itching instantly, and permanently relieving all forms of skin complaint, eczema, erysipelas, pimples, running sores, tetter, ring worms, chaps, roughness, redness or skin blotches. Gentlemen: November, 1902, I contracted facial erysipelas and my physician prescribed ichthyol ointment and returned from business. After one day's use of the ointment I concluded the erysipelas was preferable, on account of the villainous odor and color of the ointment. Having bought a bottle of Little's Liquid Sulphur with which I had cured, with one application, an aggravated case of prickly heat the previous summer, I abandoned all other remedies and applied that with most satisfactory results, as the disease was confined to the original limits and in due time disappeared. Respectfully, S. G. Warner, General Passenger Agent, Kansas City Southern Railway.

OFFERS TO MARRY COME TO WIDOWS OF MINERS.

Kansas Farmer Asks For Woman
With Two Or Three Good-
Looking Children.

Cherry, Ill., Nov. 21.—Since the news of the Cherry mine horror has been flashed across the country various persons in an official capacity or semi-official capacity here have received letters from men desiring to

marry women widowed by the fire.

Duncan McDonald, State president of the United Mine Workers, has a letter from an Eastern man, a machinist, who desires Mr. McDonald to select a wife for him. Inclosed in the letter are photographs of the machinist and his machine-shop. Mr. McDonald refuses to disclose the sender's name or address.

The City Marshal yesterday received the following letter.

Oncida, Kan., Nov. 17.—To Mr. Marshal, of Cherry, Ill.:—If you will pick out a widow with two or three children that are good looking and smart children, and their mother is an American, and she can sing, so as her children can be learned to sing and play, I would take them if she will do the work, as I haven't any family and love children. I have a good house and 160 acre farm, and if she will do what is right I'll send the children to school and clothe her and her children, treat them all just like they were my own and love her, too. I want her for companionship and help me with the work. We own our own farm and would give a deserving woman a good home. I am not particular ages of children only would like for one to be 10 or 12 years old so they could milk two or three cows. We are only milk one now, but with that much family we would have to have more milk and butter. So give one of them a chance for a good home. We have an eight room house, the dining room 14x20. So we would get along fine. I hope to get a favorable reply. From H. SANFORD.

Col. J. L. Frankel.

Col. J. L. Frankel and wife, of St. Louis, Mo., have been guests of Hon. Gen. S. Wilson and wife, of Sturgis, the past week.

Col. Frankel was the former owner of the mines now operated by the West Kentucky Coal Co. To him is due the credit of the prosperous condition of Sturgis today. Col. Frankel yet owns several thousand acres of valuable coal lands South of Sturgis.
